Architecture alternatives and controlling constraints

Analytical and conceptual records; no physical test evidence. Cite the underlying source and its limits.

MISSION HELD CONSTANT

Last-mile orbital delivery

from a controlled final stage

ARCHITECTURE MOVED

Gen5 self-contained motor

Legacy Study staged integrated gas

THE RULE

Every entry states why it stopped, with a number.

PII-8 FREE-FLYER

route back: standards + gas ceiling

COMPUTED / ARGUED · NOT TESTED

PII-9 LUNAR MASS DRIVER

different programme; no host

COMPUTED / ARGUED · NOT TESTED

PII-11 DEPLOYABLE TRACK

architecture change; straightness flips

COMPUTED / ARGUED · NOT TESTED

PII-14 CABLE GONDOLA

inertia offsets the predicted benefit

COMPUTED / ARGUED · NOT TESTED

PII-19 INDUCTION DRIVE

limited contribution in the stated model

COMPUTED / ARGUED · NOT TESTED

PII-21 WATER / STEAM

tube heat costs more than fluid saves

COMPUTED / ARGUED · NOT TESTED

Reconsider a branch when new evidence changes its controlling constraint.
